Employment report by ILO

† 3734. DR. D. MASTHAN:
SHRI KAPIL SIBAL:

Will the Minister of LABOUR be pleased to state:

(a) whether Government's attention has been drawn towards the Employment Report recently published by the International Labour Organisation stating therein, that the information and communication technology has certainly created the employment opportunities in the developed countries but not in developing countries;

(b) if so, Government's response thereto; and

(c) what assistance has been made by Government with regard to creating additional employment opportunities alongwith expansion of information and communication technology in the country?

THE MINISTER OF STATE IN THE MINISTRY OF LABOUR (SHRI MUNI LALL): (a) World Employment Report has brought out that only about one half of the world's population has access to the electricity, phone-lines and other infrastructure necessary to enable them to adopt information technologies in production and consumption; that leaves a large proportion of the world population at a significant disadvantage. The report also indicates that the software industry in InHia which grew at an annual rate of over 50% during the 1990's is one of its spectacular achievements and has created thousands of jobs.

(b) and (c) The primary objective of the Ninth Plan is to generate greater productive employment in the growth process itself by concentrating on sectors, sub-sectors and technologies which are more labour intensive, in regions characterised by higher rate of unemployment and under employment.

A Task Force under the Chairmanship of Dr. M.S. Ahluwalia, Member, Planning Commission has also been set up to look into the
